OVERVIEW

Planner Studio is ideal for all kinds of classroom activities. The heavy duty construction contributes to a sturdy work surface that can hold 400 pounds. The Planner Studio table is shipped ready to assemble.

The WORK SURFACE consists of a 1 3/4” thick birch-wood butcher block table top. Blocks are randomly placed, 6” length or greater, finger jointed birch-wood. The corners are finished with a 1/8” radius.

The FRAME consists of two fully welded leg segments and a center support channel. The legs attach to the top with #10 x 5/8” wood screws through a 14-gauge steel mounting plate. The mounting plate is welded to (2) 60mm x 60mm 14-gauge steel square tube legs which are welded to a 1” x 2” 14-gauge steel tube cross bar. The center support channel is 2” x 3” 14-gauge steel, with 14-gauge steel end plates for maximum stability. The center support channel is connected to the legs by (4) connector bolts. 4” casters are standard.
